

Forester Series

Introducing an exciting new line of real wood plates from Gull Engraving. These plates offer an attractive natural look for your piece and are available in custom sizes as well as the three convenient sizes shown here.

The Forester Line is available in three species of wood:
BIRCH, which is the lightest;
CHERRY, a medium tone wood;
WALNUT, which is our dark wood.

We know that you sometimes need different plates than what we offer in our standard sizes. In our new Forester line, you can order plates any size you like up to 4 1/2" x 14 1/2". To order your custom plate just send us a sketch of your layout. Be sure that you specify: Plate Size, Plate Color, Plate Copy, Type Style, and Variations in Line Height (Small Medium Large). You do not need to specify type size for any lines as our computerized layout equipment will generate a layout that is pleasing to the eye and fills out the plate size ordered. We will contact you with a quotation for the plate when we receive the request. Upon receipt of your go ahead, we will process your order immediately.
